BLAIRMORE, ALBERTA

Byron's Troubadours were well  
received at the local opera house  
on Tuesday night. They are the  
best musical attraction that has  
appeared here for some time.

## The Blaimore Council Has a Busy Session

Councillor Beebe Offers Ideal Site  
For Fire Hall and Municipal Building

A meeting of the town council was  
held on Monday night last and after the  
reading of the minutes of previous meeting  
adjourned until Thursday night.

Last night they re-assembled, when a  
very interesting programme of business  
was gone through.

The letter from Mayor Olinde, of  
Edmonton, in answer to suggestion that  
both councils combine to send a delegate  
to Edmonton, was received and ordered  
filed.

The appointment of Messrs. Campbell  
& Gilles as solicitors for the town in con-  
nection with the tax enforcement action,  
was approved by the council.

The Blaimore Hardware Co. asked  
permission to install a tank and pump  
under their premises. The request was  
granted subject to approval of the works  
and property committee.

L. H. Putnam, wrote asking that the  
council put in a sidewalk on Seventh  
Avenue, between the post office and his  
law office. Property and works com-  
mittee were asked to deal with the mat-  
ter.

The land titles office offered certain  
blue prints of the town, which will be  
supplied free of charge.

A letter from L. H. Putnam, in con-  
nection with his appointment to act on  
behalf of the town in the case of Irwin  
versus the Town of Blaimore, asking  
for deposit of \$100 covering one month's  
salary for Mr. Irwin, to be deposited with  
the clerk of the court, at Macleod; also  
asking for a retainer of \$50 in con-  
nection with legal services. On motion  
the above amounts were granted.

The West Canadian Colonies renewed  
the offer made by them, last year of free  
fire hall and nuisance ground site. After  
considerable discussion, on motion the  
offer was refused.

Councillor Beebe made the Town an  
offer of lots 1 and 2, in block 7, situated  
on the corner of Ninth Avenue and Vi-  
ctoria Street, in exchange for the famous  
Malcolm lots purchased by the Town last  
year for fire hall purposes.

The reply of A. C. Hardshaw, C.P.R.  
representative, to Councillor Beebe's  
letter, in the park was ordered filed.

Several other communications of a less  
important character were received.

A number of small accounts were read  
and ordered paid.

It was decided that the council act as  
a court of revision, to hear applications  
against the 1914 assessment roll, on Wed-  
nesday, June 3rd, 1914.

The secretary was instructed to write  
the Keystone Cement Company in re-  
sponse to a short lease of a nuisance  
ground.

The board of health asked that the  
council co-operate with them in the ap-  
pointment of an official to act as sanitary  
inspector, etc.

A by-law to regulate the duties of the  
fire-chief and firemen received its first  
and second readings. The by-law requires  
that a practice and test of all hydrants  
must be made at least twice a month, and  
that the firemen be paid the sum of \$1.00  
each for each call and \$1.00 for each hour  
after the first hour.

## Well Worth Considering

The offer made by Councillor Beebe at  
last night's meeting of the council is well  
worth considering. The site for a combined  
court house, jail, municipal and  
fire-department is really the best the  
town has to offer. Directly opposite is  
the main railway crossing and the finest  
avenue in the town leading to the main  
portion of our population. Any part of  
the town could be reached in short time  
by the fire brigade. The site for an im-  
posing structure such as should be pro-  
posed is also ideal, and commands a view  
of practically the whole town. Our citi-  
zens should avail of the offer and get out  
and boost and agitate for the Beebe site.  
Blaimore is the natural location for a  
court house, being in the centre of the  
largest industrial district of the province.  
It is a known fact that over fifty per-  
cent of the cases heard in the supreme  
court at Macleod have their origin in the  
Cross' Nest Pass.

The new site has its advantages over  
the Malcolm site in several particulars,  
while to it the West Canadian site is no  
comparison.

A runaway created considerable  
excitement at a crowded town this morning.  
The excitement started from the C.P.R. station, and before going  
south lodged half of its vehicle  
behind a telephone pole. Returning  
north they paraded down  
Victoria street to Seventh Avenue,  
where Church, the Barber, was given  
a close shave and the famous  
post office came very near being  
annihilated. Here the balance of  
the day was being up and the  
horses proceeded. They were finally

## Provincial Mayors on An Important Mission

Make Urgent Appeal For Priv-  
leges Formerly Enjoyed  
By Municipalities

The following resolution was adopted  
by the convention of provincial mayors  
of Edmonton and presented to the govern-  
ment through their spokesmen, Mayor  
Simont, of Calgary, and Mayor Townsley,  
of Vancouver:

"WHEREAS under recent acts the  
legislative assembly of Alberta has enacted  
certain amendments to the liquor  
license ordinance, by means of which the  
Municipalities of the Province have been  
deprived of their right to collect license  
fees from persons engaged in the liquor  
trade, and further of their share of the  
tax imposed for licenses of the provisions  
of the said ordinance.

"AND WHEREAS certain legislation  
has been passed in regard to the School  
Act whereby the Municipalities have been  
deprived of certain grants, thus imposing  
a greater burden upon the tax payers of  
the said Municipalities.

"AND WHEREAS under the provisions  
of the Pool-room Act of the Province of  
Alberta a heavy penalty is imposed for  
infraction if the provisions of the said  
act belong to the Municipalities in which  
the offense was committed.

"AND WHEREAS under the provisions  
of the Theatre Act, all penalties recover-  
ed thereunder are paid to the treasurers  
of the Province of Alberta.

"NOW THEREFORE be it resolved by  
this convention of the Mayors of the  
Cities and Towns of the Province of Al-  
berta that in the opinion of this conven-  
tion it is desirable that the Liquor License  
Ordinance be amended so that the Muni-  
cipalities shall have the right to impose  
on the persons licensed under the provi-  
sions of the said Ordinance a license  
fee equal to that imposed by the govern-  
ment of the Province of Alberta, and so  
that either a moiety of all penalties shall  
belong to the Municipality in which the  
offense was committed, or in the alterna-  
tive that the said penalties be paid to the  
treasurers of the Province of Alberta, in  
cases where the prosecution is conducted  
by the officers of the Municipality.

"AND BE IT FURTHER RESOLVED  
that in the opinion of this convention  
the Liquor License Ordinance should be amended  
so that a moiety of every penalty imposed  
thereunder shall belong to the Muni-  
cipality in which the offense was committed."

Strong objections to the methods of  
the province in this connection, con-  
taining all of the money paid hotel keep-  
ers for licenses for the privilege of  
selling liquor was taken this morning  
by all of the mayors in the province who  
were in convention in the city council  
chamber. They also went on record as  
being opposed to the government accept-  
ing all of the fines paid for violation of  
the liquor ordinance. Furthermore they  
will also seek to secure a portion of the  
money paid to the government for the  
privilege of conducting auction picture  
shows in the province.

Nearly everyone at the convention  
spoke against the government tactics and  
proceeded to the parliament buildings and  
lay before the acting governor a resolution  
asking that the towns and cities receive  
a portion of all money paid into the pro-  
vincial treasury for privileges that  
cause expense to the municipalities for  
maintaining.

It was explained that the fee charged  
hotel keepers in Alberta amounts to  
\$80.00 in the cities and \$40.00 in the towns.  
Of this amount none is given to the  
municipalities, although in Saskatchewan  
the fee is \$50.00, of which amount \$20.00  
is turned over to the cities and towns. The  
wholesale houses in Saskatchewan are  
charged \$1,200 and \$200 is placed to the  
credit of the municipalities.

What the convention is striving for is  
to secure the monies that the municipali-  
ties once got from such licenses and fines,  
and in support of the nearly all of the  
mayors attacked the government for re-  
versing the legislation at the last session  
of parliament. They claimed that there  
was no reason whatever why the govern-  
ment should claim all of the money, and  
no reason why the municipalities were not  
entitled to half of it.

Mayor Simont said that it was his  
opinion that the cities and towns should  
get a portion of the money because it  
cost them money to maintain such places,  
and the government got all of the money  
paid for the privilege of conducting them.  
He was very doubtful if they could get  
anything from the government after they  
had once been paid into the provincial  
treasury, and he suggested that the munici-  
palities make the collections and pay  
the government that amount was due it.

Mayor Olinde, of Coleman, repre-  
sented the municipalities of Blaimore  
and Coleman at the convention.

He was captured, both having sustained  
slight injuries.

## BRISCO'S

## BLAIRMORE

Since deciding to discontinue Dry Goods I find the great satisfac-  
tion the public received from this store while in Dry Goods, and the  
great demand we have every day for Dry Goods has convinced me  
to continue, and as things become better in Blaimore I will in-  
crease my stock to meet the demand.

## JUST ARRIVED

Ladies' and Children's Hose and Underwear. Full  
range of Cottons, Lawns, Nainsooks, Linens, Velvets,  
Pillow Cotton and numerous articles in small wear,  
and expecting soon, Prints, Laces, etc.

## Educating The City To Favor Home Industry

We notice by the Calgary  
that the council of that city are making a strong  
plea for the patronage of the  
local manufacturing institu-  
tion.

## Frank Happenings

Mrs. Howard, of Hillcrest, was a vis-  
itor here on Wednesday.

J. Foster, of McCall Bros., Calgary,  
was in town this week on business.

H. E. Pozzi has the contract for the  
foundation of A. F. Blais' new store.

Mrs. Wilson and Mrs. Irwin, of Blaimore,  
were visiting in Frank on Sunday.

J. Simpson and J. D. McDonald, of  
Bellevue, were Frank visitors on Thurs-  
day.

The shops were opened on Thursday  
morning, a large number of men securing  
employment.

The Frank football team journey to  
Calgary on Saturday, where a friendly  
game will be played.

Messrs. McGrath and Goodwin, of the  
Edinburgh iron works, were business  
visitors here this week.

Excavation for the foundation of the  
new store for the Frank Wine and Spirit  
Co. is going on rapidly.

J. Sterling, engineer, of Cook Creek,  
was a visitor in town last week end,  
returning Monday morning.

Quite a number from here attended the  
dance at Bellevue on Saturday night, and  
all report having had a good time.

Mrs. (Rev.) W. T. Young has gone to  
Edmonton, where she will spend a few  
weeks. Mr. Young accompanied her, but  
will return this week end.

A drunken brawl ensued between some  
foreigners near the station on Tuesday  
night, in which a razor was used in an  
effort to "unmask" one of the party.

LOOK TO YOUR PLUMBING:  
You know what happens in a house  
in which the plumbing is in poor con-  
dition—everybody in the house is  
liable to contract typhoid or some  
other fever. The digestive organs  
perform the same functions in the  
human body as the plumbing does for  
the house, and they should be  
kept in first class condition all the  
time. If you have any trouble with  
your digestion take Chamberlain's  
Tablets and you are certain to get  
quick relief. For sale by all dealers.

An error occurred in our editorial  
column referring to appointments—  
where instead of "by-laws were passed" it  
should read "resolutions were passed."

Sunday, May 3rd, has been  
selected as anti-cigarette day.

Earl Eckmire attended the hospi-  
tal ball at Pincher Creek on  
Monday night.

All the lawyers of northern Al-  
berta will be at Macleod on Tues-  
day next to hear the case of Irwin  
vs. The Town of Blaimore.

The preliminary examination of  
J. R. Irwin, the ex-police, took  
place at the police barracks on  
Thursday, Solicitors Putnam and  
Roberts being in attendance.

Mike Rose claims to have the  
smoothest-running car in the Pass  
on Thursday he covered the dis-  
tance between Passburg and Cole-  
man in 30 minutes and didn't see  
a stone. He is now planning to  
give Mayor Lyon a bump. Two  
much "Dewar's," Mike!

## The Town of Blaimore IN THE MATTER of an Application for Confirmation of the Tax Enfor- cement Return for the Town of Blaimore in the Province of Alberta.

NOTICE is hereby given, pursuant to  
the order of His Honor Judge McNeil,  
made the 28th day of March, 1914, that  
a Court of Confirmation of the Tax En-  
forcement Return for the Town of Blaimore,  
in the Province of Alberta, for arrears  
of taxes due to the said Town to the  
31st day of December, 1913, will be held  
at the Town of Blaimore on the 18th  
day of June, 1914, at the hour of 2:30  
o'clock in the afternoon.

DATED at Blaimore the 4th day of  
April, 1914.  
C. E. F. HISCOCKS,  
Secretary-Treasurer,  
Of the said Town of Blaimore.

Campbell & Gilles,  
Solicitors.

## Try Murine Eye Remedy

**Try Murine Eye Remedy** for all eye troubles. It is the best remedy for all eye troubles and is the best remedy for all eye troubles.

## Preparing Land for Grain Crops

In view of the fact that every year brings to the Northwest many new settlers who are unacquainted with the methods of breaking and preparing land for crop, and that the success or failure of a grain crop often depends on the method employed in the preparation of the land, for his first crop, there has been a considerable amount of interest in the preparation of the land.

Some valuable points are also given as to the breaking and later treatment of new land by the Superintendent of the Experimental Station at Scott, Saskatchewan, Leithbridge, and Lacombe, Alberta, and Brandon, Manitoba.

This Bulletin No. 15 of the Second Series of Experimental Farm, is intended for those who are interested in the subject of the treatment of land, upon receipt of application, a copy will be made by the Publications Branch of the Department of Agriculture.

**Waste on Farms**

A Wisconsin farmer presents to the public an explanation of the waste on farms, which is interesting and without importance. In his country dairy products are the staple, though many other products are raised.

For instance, practically every farmer has a small cow yielding milk for his own use. The surplus is not sufficient to pay for the cost of the cow, but it is a small amount of milk.

I, myself, he says, have tried giving my cow a small amount of milk, but it is not sufficient to pay for the cost of the cow.

**Minard's Liniment Cures Dandruff**

A successful agricultural show is carried on each year in a certain village in the south of Ireland. Among the many competitors for the encouragement of thrift and cleanliness is one of the best treated on donkey and cart.

**When so much is being said in favor of technical training, it is unwise to forget the broad mental discipline which comes of a stiff course in classics or mathematics.**

**Not Down to Standard**

Persistent contributor - You are quite sure you do not want this story, but I am sure you will.

**Oh, Maurice, he said, have you heard of my misfortune?**

No, Barrymore sympathetic, is there a misfortune in your family?

**Not that, my little boy, five years old, son of my play and tore it to tatters.**

**Upon what does Torpid-like base its expectation that its name will be thundering down the ages?**

**The Origin of a Fad**

Marcella, who had been eating out of the window, suddenly began to laugh hysterically.

**What in the world is the matter, child, asked her mother.**

When I finished my carpet rug, Marcella explained, I folded it across my lap and carried it that way down the stairs.

**Now, children, said the teacher to the boys and girls, I have five to nine yards of cloth and need five to make a shirt and three to make a pair of trousers.**

**Three Germans were engaged in a confidential talk while dining together in a Broadway cafe a few days ago.**

## Make Noise When You Eat

Courted people do not make a noise when they eat. This is all well and good in an aesthetic way, but in a hygienic way, says a doctor, silence has deprived the act of eating of a healthy gusto that makes for a good appetite and fine digestion.

It is natural to make a noise when one eats. Try it some time when you are in private and see with how much more vim and actual physical enjoyment you back away your meal.

The little untrained child enjoys the candy it sucks glibly and smacks its lips over 100 per cent more than the self-controlled older person who eats candy with constant care not to make the least sound while doing so.

I have often advised a patient coming to me for advice about a languid appetite to eat alone and munch over the food like an untaught child or a day laborer for a while, just to learn how to eat food, then after having learned to return to polite society determined somehow by attitude of mind and attitude of energy of physical attitude while at table to maintain that relief.

**Made Hole in Ocean's Bottom**

A hole nearly a mile deep was formed in the bottom of the sea off the coast of Panama by the recent Central American earthquake.

According to reports, the result of these earthquakes is a submarine cable was broken, and a cable ship was sent out to make repairs. The ends of the cable were found to be buried under enormous masses of material, and where the government cables published in 1904 showed a depth of five thousand feet.

This remarkable depression is located off Los Santos province, about fifteen miles from the mainland, and is about half a mile wide.

**Minard's Liniment Cures Dandruff**

A successful agricultural show is carried on each year in a certain village in the south of Ireland. Among the many competitors for the encouragement of thrift and cleanliness is one of the best treated on donkey and cart.

## Higher Voltages

A general tendency toward higher voltages in electric transmission plants is apparent. One plant, for instance, is now being built in Big Creek, Cal., to Los Angeles, 240 miles, at an initial pressure of 135,000 volts, to be raised to 150,000 as the load demands.

Kokop's plant is regularly shooting current at 100,000 volts into Los Angeles a line more than 140 miles long.

Reverend Person (doing an odd job with the church fence)—You appear to be watching me very closely, boy. Do you take an interest in carpentry?

Boy—No.

Rev. P.—Then what are you waiting for?

Boy—I'm waiting to hear what a parson says when he hits his thumb with the hammer.

**Magic Effects on Neuralgia**

## A BRONCHIAL COUGH

is wearing and dangerous because the inflamed, mucus-filled tubes interfere with breathing and the fresh air passes through that unhealthy tissue.

Probably no other remedy affords such prompt and permanent relief as **Scott's Emulsion**, which checks the cough, heals the linings of the throat and bronchial tubes and strengthens the lungs to avert tuberculosis. This point cannot be emphasized too strongly—that **Scott's Emulsion** has been suppressing bronchitis for forty years and will help you.

Be careful to avoid substitutes and insist on **SCOTT'S**. At any drug store.

**Needed All His Reserve Wind**

Donald McLannan, as beloved his reputation as the strong man and athlete of the district, entered his name for all the events in the village sports, and, as a matter of fact, was a not a favorite of most of them.

In short, great things were expected of him, but expectations were hardly met, and the first event in the program was the quarter-mile and eight runners Donald finished eighth.

Donald, Donald, said a fellow Scot, why did you try to run faster than the strong man? The strong man sneered.

Run faster, he said contemptuously. An' me reserwin' myself for the bag pipe competition!

## An Extraordinary Paper

One of the most extraordinary newspaper on record is a weekly publication in the little German town of Gruningen. As the place is so small, support more than one paper, the Wochenblatt is the official organ of the two political parties, the Liberals and the Socialists. Half the paper are written by members of each party, an arrangement that seems to satisfy both sides.

Blairmore, Alta., Fri., April 17, 1914

The merchant who doesn't believe in the use of printed ink has never advertised, and he never advertised right. The failure to produce results is not chargeable against advertising, but rather against the manner in which it is done.

Trustees of the Chicago Symphony Orchestra are introducing two measures of reform. In Chicago it has been suggested that the granting of encores is an anti-artistic practice, that it destroys the logic and symmetry of the programme, and prolongs it unduly, the latter feature being largely responsible for keeping many people away who would otherwise help to swell the box receipts.

From New York comes the news that the new \$2,000,000 hotel which is to cover the block on the Boardwalk from Ocean Avenue to Tennessee Avenue, at Atlantic City, and for which no name has yet been found, is going to give its patrons something entirely new in hotel customs. Contracts are to be entered into with the heads of all amusement places in the resort for wholesale admission. These privileges will be distributed among guests with the same system and regularity as their meals. Due attention will be given to the tastes of the patrons in the manner of selection of amusement privileges.

## How It Was Done At Innisfail

"The by-laws to appoint a constable, a weighmaster and a secretary-treasurer were held up so that agreements with the parties named could first be drawn up. The usual practice in the past has been to pass the by-law and then make the agreement."—Province.

At Blairmore last year, in connection with the appointment of secretary-treasurer and police, the by-laws were passed and the agreements culled into afterwards. The agreements never came before council for approval.

## An Argument For Cash Dealing

The following appeared as an advertisement in a Southern Alberta weekly. The argument is so well put, it is reproduced here.

"Beginning January last, 1914, this store will be run on a strictly cash basis.

"It is a known fact that a credit customer pays 10 per cent. of his accounts. Some lose a great deal more, some less. You can see that every store loses a large amount of money every year in bad accounts.

"Who loses all this money? The storekeeper cannot afford to lose it, or he would be bankrupt in a short time. There is only one other class to lose it. The people who pay their bills. Is this system fair? Is it fair that the ordinary man should not only support his family (even in the face of the high cost of living) but help to support every dead beat and his family in the community? Not only all the dead beats but all the other people that for any reason do not pay their bills?

"It may seem a hardship not to get merchandise when a person hasn't any money, but it is a blessing in disguise. Every man knows that he must live. Why not provide before in place of after to meet this requirement? A man is far better off for several reasons. If he gets unlimited credit, he and his family are liable to buy a great many things they could well do without. It is harder to pay for an article long since consumed or worn out than one which we are yet to use and enjoy.

"Where cash is paid the settlement is made and there is no chance of paying for something you did not get. You pay no interest, you are not taking chances of getting sued and paying two or three times the original amount, or paying an account you have once paid. Some of you have had bitter experience of this kind. If you have been burned in this way, do not handle this kind of fire. It will burn you once, it will burn you again if you expose yourself to it.

"How many people in this country today would not be better off if they had had such a good credit? How many of us did not abuse our good credit and get in too deep? If everyone had had invested according to their means wouldn't we've endured the hard times easier?

"There are very few of us living awake nights, growing thin, worrying how we are going to live next month. We all know that we can meet the occasion with a ball and steady step. If we have not a ball and chain of debts to drag us down, but on the other hand a great many, we are worrying how we are going to pay

for the things we need last month and how we are going to provide for the needs of today.

"Which is the more prosperous country, the one in which everybody pays, the business men who in turn owe the whole-makers, and the country from one to five years behind financially with the real-estate being snapped out of it in the shape of interest, legal fees and unjust accounts, or the country in which the people are financially up-to-date, buying their goods most advantageously and selling their crop in the same way.

"Where they do not have to sell their crop the minute it is saleable, when the price is the very lowest, in order to pay the merchants so that they can pay the whole-makers to whom they have been paying interest and who are crowding them to the brink of bankruptcy, sometimes over the brink into the abyss.

"If we do not get cash for our goods we cannot take our discounts so the cysts in that much more and our selling price must necessarily be greater.

"Here is what we propose to do. Sell our goods for cash, pay our bills promptly, get our discounts and avoid paying interest. Sell our goods at much smaller profit and give the people the benefit of it.

"Here is an example under the credit system.—A merchant buys a pound of tea for 31 cents it costs him 32 cents on his shelves. He sells it for 40 cents and he puts it on his books for a year, he makes 8 cents on the investment but he has not paid for it yet, he has not received his money from the customer and he is paying 10 per cent interest to the whole-makers on 32 cents which is a little more than 38 cents, therefore he has paid a little more than 38 cents for the pound of tea. He makes little less than 2 cents on an investment of 35 cents, which is less than 14 per cent and it takes nearly that to pay his running expenses.

"Now under the cash system.—The pound of tea costs 32 cents. The merchant cuts the selling price down to 30 cents and makes 3 cents which is only 9 four sevenths per cent, buys another pound and another three times. Three times he earns 32 cents and makes 9 cents which makes him a profit of 25 five sixths per cent and he has reduced the price of 40 cents under the credit system, to 35 cents under the cash system or 12 1/2 per cent. These figures no doubt are startling but never the less they are true. You can figure it out very easily for yourself.

"Now decide under which system you will do your trading. Decide which store can give you the most goods and the best quality for your money.

"The credit system is an antique, expensive, misleading system which is fast giving way to the up-to-date, economical, satisfactory system of cash business and cash sales."

## Byron's Troubadours.

Those who attended the grand entertainment given by Byron's Troubadours on Tuesday night are loud in their praise of that organization. Without exception, they never saw a finer musical combination on an Alberta stage. For over two hours the vast audience at the opera house were held spell-bound and the Byrons were obliged to secure repeatedly every item on their programme. This company merits the support of the Canadian public. Their ability can not be questioned, while their character of the performance is such as must be accepted by all classes of society. Every member of the troupe is a gentleman, their appearance attractive, and each proves an artist in music.

The singing by Mr. Fitzpatrick elicited great applause, while the musical quartette in "Dixie Land" drew such roars of appreciation that made the building ring. Quintettes, sextettes and entire-troupe choruses made up the programme of the evening.

Much interest was centered in the Byrondell, a combination of two small stringed instruments played by four persons. This is the only instrument of its kind in the world and is used only by this company.

It is to be hoped that arrangements will be made for a return of The Troubadours, when a record house will greet them.

The members of Central Baptist church are to be congratulated on having secured The Troubadours for ensuring such a musical treat for The Pass.

## SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty or more than 25,000 acres will be leased to one person.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the lands are situated.

In surveyed territory the land must be described, and in unsurveyed territory the location of the land must be described, and the applicant must be prepared to furnish a map of the land.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of coal mined, and shall pay the royalty thereon. If the coal mined exceeds the quantity of coal which was estimated to be mined, the royalty shall be increased accordingly.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

### Bellevue Happenings

Maggie Burrows spent Easter in the camp.

Joe Grafton paid a business visit to Calgary.

Mrs. Robert Dicken is laid up with lagrippe.

J. R. MacDonald was up from Frank on Sunday.

Mrs. Tom Bradley was up from Frank on Saturday.

Miss McKury, of Fernie, spent Easter in the Camp.

Robert Cummins and wife were Coleman visitors on Sunday.

The Lyric theatre put on a big cowboy feature on Monday night.

Vice-president Graham, of District 18, was a Bellevue visitor last week.

Mrs. G. W. Goodwin, of Frank, was a Bellevue visitor on Easter Sunday.

Mrs. and Miss Jenkinson, of Michel, were Bellevue visitors on Tuesday.

The directors of the Maple Leaf Collieries Co. visited their property last week.

A. R. Ostrander has returned to the camp and will reopen a photo gallery here.

Welsh's pool room has changed hands, and will in future be run by Mr. Randall.

Martin Leskoos was hurt recently while pulling pillars at No. 2 mine. He is doing nicely.

Mr. and Mrs. Jas. Glendenning, of Coleman, were visitors with Mr. and Mrs. Robert Evans on Easter.

A very busy docket appeared at the local mounted police barracks on Monday, presided over by Inspector Junget.

The open-air concert given by the Bellevue band on Easter Sunday was much appreciated by Bellevue citizens.

Mr. Bartlett, of the "Bellevue Times," visited the camp on Sunday and Monday. If you know Bartlett you would subscribe for "The Times."

A large congregation attended the special Easter services at the Methodist church on Sunday night. The excellent work of the choir was much appreciated.

The Italian people of the camp held a successful dance in the Workers' hall on Saturday night. Several people from Blairmore and Coleman were in attendance.

A christening ceremony took place among the foreigners on Sunday, which was celebrated by a generous supply of booze. It ended in a fracas which lodged a number of men in the coop for the rest of the night.

The "Hard Times" basket social held in the Methodist church on Monday evening was a success from every standpoint. Before the sale of baskets, a programme was rendered, which pleased everybody. Among the artists were Misses Doris Bateman, Marjory Brown, Winnie Dicken, Mrs. Fred Wolstenholmes, Messrs. Robert Dicken, Tomlinson and Tucker. Besides were tableaux and dialogues by the young ladies and the superb singing by the Bellevue choir under the able leadership of Watts Goodwin. Mr. Geary, as auctioneer, with a broad north country dialect, greatly amused the kindred spirits. There was an unusually large variety of attractive baskets, including most original designs, the most unique being a nest of Easter eggs by Mrs. Stephen Humble. The basket of Miss Bradley won the distinction of bringing the highest price. Everyone present declared the occasion the most pleasant yet.

### COUGH MEDICINE FOR CHILDREN

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effective. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by all dealers.

### Found Important Records

Edmonton, Alta., April 17.—While delving among the archives at the parliament building in Edmonton today, John Blue, provincial librarian and statistician, found numerous authenticated records, which show that Pierre Daples Reddon, a native of Quebec, born about 1815, was the first immigration agent for the country west of the Great Lakes. He was followed by Henry Kelsey, who traveled extensively in the present provinces of Manitoba, Saskatchewan, and Anthony Hendry, the first white man to visit what is now the province of Alberta.

The report made by Reddon in 1836, after his escape from a camp of Iroquois Indians, who had carried him from his home in Quebec on a trip to the north shore of Lake Superior, follows:

"The country was so beautiful, pleasant and fruitful that it grieved me to see that the world could not discover such enticing countries to live in. This I say because the Europeans fight for a rock in the sea against one another—for a sterile land where, by change of air, they engender sickness and die. Contravise, these khindoms (the prairies) are so delicious and under so temperate a climate, so full of all things, that the people live long and lusty, and wise in their ways. What a conquest this would be! What pleasure people would have instead of misery and poverty!"

Reddon returned to the western country in company with his brother-in-law, M. Groselliers, after visiting his home on the St. Lawrence river, and to other they explored the country in the vicinity of Lake Winnipeg and Portage la Prairie. His prophecy regarding the prairies has been verified by the world after a lapse of 75 years.

Anthony Hendry was sent into the western country in 1761 as an emissary of the Hudson's Bay company to solicit the trade of the Blackfoot and Cree Indians of the prairies for the posts at York Factory and Fort Churchill, on Hudson Bay. His report from the chiefs of the tribes was that their braves would not attempt the long canoe trip down the Saskatchewan river, through Lake Winnipeg and Nelson river, to reach the bay. Contrary to the accepted belief, the reason for their refusal to make the trip was not the length of the journey; but, as stated by the chiefs, the braves were not accustomed to the handling of canoes, traveling exclusively with horses.

Hendry came as far west as the head waters of the Red Deer river, passing the winter in the foothills of the Canadian Rockies and returning the following spring down the Red Deer river to the Saskatchewan river and thence to his home. He was the first white man of whom there is any record as having visited this province.

However, Hendry was not the first man sent into the western country by the Hudson's Bay company. Henry Kelsey, a youth of 18 years, preceded him, according to the reports found by Mr. Blue. Kelsey left York Factory in 1690, several years after the French traders had invaded the prairies. He passed two years in traveling what are now the provinces of Manitoba and Saskatchewan. The itinerary of the journey is largely a matter of conjecture, and the records do not show that he ever visited this province.

Reddon was the first man to make a report upon the possibilities of the western prairies, which were then the homes of buffalo and other wild things, Mr. Blue said. "His discovery is simply a portion of the romance that has no parallel in the history of the North American continent. He was captured by the Indians while still a child and returned to the western country to do further exploring, after passing a few years with his parents in Quebec."

### Warnings of Icebergs

Ottawa, April 8.—Definite steps have been taken to carry out this country's share in the conventions agreed to some time ago in regard to the protection of the coast. The Marine Department has placed an officer at Cape Race, who will receive messages from the two United States ships which are patrolling the North Atlantic, as well as from other steamers. Reports as to the locations of the icebergs and fields will be furnished out, so that other steamers in all directions may be warned. Cape Race is being used as a station available all the year around, but from June to October there will be a similar service maintained at Belle Isle.

### Rabbits Ravage Forests

At a recent conference of Forestry Branch officials at Ottawa, the Inspectors of Dominion Forest Reserves unanimously agreed that thousands of acres of young trees on these reserves have been destroyed by rabbits in the last couple of years. The bark of poplar, larch and spruce seems to be equally acceptable to them, and in many places so completely have the trees been stripped of bark at the base of the trunk that they have the appearance of a white washed forest. Especially do the rabbits like the young tender tree seedlings in the forest reserve nurseries, and in one instance some thousands of green ash transplants were entirely consumed in one night.

It is hard to realize the great numbers of these rabbits in the West in some seasons, yet the rapidity with which they increase seems, strangely, to be one of the reasons for their periodic decline in numbers, for the western Indians state that the disease which almost exterminates them every seven years or so is due primarily to starvation through lack of sufficient food.

The Australians were put to the necessity of building a wire fence almost across their continent to protect their crops from the rabbit plague there. The Forestry Branch has a similar problem in protecting the forest crops in the West from devastation. It was once proposed to put a little wire fence around each tree planted, but a forest is not an orchard, and some more practicable preventive will have to be found for the annual destruction caused by rabbits on the thirty-six thousand square miles contained in Dominion Forest Reserves.

### GOVERNMENT OF THE PROVINCE OF ALBERTA

## FARMERS

Can always make sure of getting the highest prices for WHEAT, OATS, RAIN WY. and ST. W. by shipping their

will have a big population in the West. Although mixed farming will be very profitable and will grow to a greater extent as the years go by, still we cannot but face the fact grain will be the principle product of this province for very many years to come. We have not the people here to neglect, and for a number of years to come we must export it. If we have to export it we must make the most economical way to do so.

**Automobile Alarm**

An inventor has designed an alarm for automobiles with the object of discouraging the car thief. It is claimed that it will save the car in the same manner without first using the key which controls the device reliance the alarm being set for forty or fifty short circuits the ignition wires, and turns off the petrol. Since it is claimed that the alarm can be set to go off within two whole days have passed, a thief could not get very far with his stolen car.

**ARE YOU ONE OF THE UNFORTUNATES WITH BACKACHE, HEADACHE AND THAT TIRED FEELING**

If so. Listen to the Story of George F. Stander, and Use Dodd's Kidney Pills.

Hawthorn, Sask. (Special).—If you are one of those unfortunate who suffer from sore back, headache and that tired, listless feeling that makes work a hardship and life not worth living, the story of Geo. F. Stander, a well-known young man at this place, will interest you.

Stranger—Cried a pedestrian pass this way.

Granger—No, sir. I've been right out sick these past months. I can't go any more and not a blammy thing has passed 'cept one solitary man, an 'un he was trampin' 'riling on foot.

**Shiloh**

The family remedy for Coughs and Colic and all the ills of Infants and Children.

An Oxford doctor has been so popular that he was part of the university exhibit. A guide, taking people through the grounds, stopped under a bush and, pointing up, said: That room is occupied by Professor Bead Sea. When you see a bubble at the window a face appeared and he added: And there's the professor himself.

**A Medical Need Supplies.—When a**

headache. I had a bad taste in my mouth and a bad feeling all over and was always tired. I finally decided that my kidneys were the cause of my troubles and I went to the doctor for Kidney Pills. I got half a dozen boxes and, before I had finished taking them, I was feeling like a new creature.

"I advise anyone suffering as I did to use Dodd's Kidney Pills."

Healthy kidneys strain all impurities, all the seeds of disease, out of the blood. Weak kidneys leave these impurities in the blood, the result is nervousness, tired feeling and pain and aches that often develop into the dreaded Bright's Disease. Dodd's Kidney Pills make weak kidneys strong and healthy.

**Our Old Folks**

Some of our newspapers have drawn conclusions from the census figures that our people are getting so young; but they failed to reckon with our old folks. In the 7,269,743 Dakota was the population of Canada there are included 44,342 octogenarians and 4,623 nonagenarians. And the census officials counted twenty centenarians!—L. Little.

Mamma, said a bright little four year old, whose mother was a widow, "Why would I do a thing like that? The man he keeps the money store on the corner."

**“CATARRHOZ” PREVENTS BAD COLDS**  
**STRENGTHENS WEAK IRRITABLE THROATS**

Employes Nature's Own Methods and is Invariably Successful.

Few will make a cold this winter, but almost every cold run into Catarrh.

Neglected Catarrh is the straight gateway to pneumonia.

Catarrh is a germ-killer, destroys microbæ that cause Catarrh.

It kills the bacteria, dissolves the clog, gives throat and lungs a chance, cleanses the nostril—clears the head.

You feel better in an hour.

In a day you're greatly relieved, and the swelling of the throat subsides.

No treatment so direct. Catarrh once goes back to the spot—acts slowly.

If, you cough thoroughly Catarrh brobbs it out of your throat.

"Nothing could kill a cold so fast as Catarrh," writes Amy E. Snelton, "and I have tried it."

"I had a frightful cold in my head, suffered from itching nose, running eyes, sore throat, and aching chest. I was utterly with 'Catarrh' and in a few minutes I was better and in one hour I was cured of my Catarrh. I can now consider a marvel."

"Cory's Catarrh Cure" is inhalant and is taken by the nose—take it to the church—to the theatre—to work—in bed. It prevents and cures all colds, coughs, sore throats, whooping cough, croup, influenza, and all the commonest ailments. Complete relief, guaranteed.

Small size, 50¢; sample size, 10¢; dealers everywhere.

## IN ST. PAUL'S

HALIFAX CHURCH IS A CENTRE OF HISTORIC ASSOCIATIONS.

Matchings of Dead and Gone Notables Still Line the Gallery and Abbey. Celebrated Names Occur Anon. Those of Old St. Paul's in Halifax, after a Sunday morning service by the Rev. Archbishop Armbrage, do not fail to give you a glimpse, alert on the front of the big gallery, says Augustus Brite in The Toronto Globe.

Do you know what is a hatchment? Have you ever seen at hatchment? If not, when you are looking about the sides of St. Paul's in Halifax, after a Sunday morning service by the Rev. Archbishop Armbrage, do not fail to give you a glimpse, alert on the front of the big gallery, says Augustus Brite in The Toronto Globe.

If it were not for the hatchments of St. Paul's, along with a good many other affairs quite as medieval and ancient as the old St. Paul's in Halifax, after a Sunday morning service by the Rev. Archbishop Armbrage, do not fail to give you a glimpse, alert on the front of the big gallery, says Augustus Brite in The Toronto Globe.

In short, a hatchment is the coat of arms of some dead grandee or hero of man of action, done in colors by some painter and framed up to look as little like a real picture as much like a frescoed coat of arms as possible. And Halifax has a lot of them.

And Halifax has a lot of them. In these colonial days, when the old St. Paul's in Halifax, after a Sunday morning service by the Rev. Archbishop Armbrage, do not fail to give you a glimpse, alert on the front of the big gallery, says Augustus Brite in The Toronto Globe.

## IRON-ROAD EPIDEMICS.

Why Railway Accidents Occur in Cycles and at Certain Times.

Like measles and smallpox, railway accidents are epidemic. One bad case, it would seem, breeds many others.

Take, for example, the terrible accident at Alder Hoton which occurred recently in Great Britain, when fifteen passengers were killed. This was immediately followed by a case or two, and then, only one of which, happily, was attended by loss of life. But this was due to sheer good luck.

The derailing of the Flying Scotsman at Chertington might just as well have developed into one of the most appalling catastrophes of modern times; while the two other week-end accidents which took place at Blackburn and Ludlow respectively, were of precisely the same kind that have been attended by many fatalities upon other occasions.

What causes these epidemics of accidents, which, like the measles, recur regularly in cycles of years? It is hard to say. One theory, largely held by railway men, is that they are due to carelessness, begot of over-confidence, which is due, in its turn, to long immunity from disaster.

Another is that they are brought about, in part, at all events—by a certain type of accident epidemic—like, for example, the case of the derailing of the Flying Scotsman at Chertington, which took place all over the various railway systems of the world during the winter and was attended by a number of fatalities.

A landslide, destroyed in one case an entire excursion train, and in another, killed thirty-two people. This was on Oct. 20, and on the 21st of the same month the Imperial train was derailed near Bortol, South Russia, from a similar cause, and several people injured, and above a score of people killed. A little later a tunnel collapsed in the case of the Great Eastern Railway, in Wales, causing the loss of seven lives.

And to this cause can be ascribed with absolute certainty the somewhat recent accident at Alder Hoton, when a passenger train was derailed, and several people injured, and above a score of people killed. A little later a tunnel collapsed in the case of the Great Eastern Railway, in Wales, causing the loss of seven lives.

Epidemics of railway accidents occur, in fact, in cycles, and are attended by a number of fatalities. This was on Oct. 20, and on the 21st of the same month the Imperial train was derailed near Bortol, South Russia, from a similar cause, and several people injured, and above a score of people killed. ## FRENCH IN THE BUSH.

Norman Duncan Tells of a "Swagman" in Australia.

In his account of his journey through the Australian dry-lands, Norman Duncan tells of a "swagman" who he met in the bush.

On our way back to the trail we encountered a hairy, dazed, ragged fellow, pedalling a bicycle through the scrub, a prag on his back. He was all in the labor of his hands.

Whether he was minor, tramp, there was no telling. At any rate, he was riding for liquor, as he was quite frank to say, and after all, presently told us, as we went along, that some days before, traveling the edge of the "bigger bush," he had been in a fight with a roving band of glass (black) women.

## PANTO TRICKS.

How Some of the Starling Stage Effects Are Secured.

Visitors to the various pantomimes in London are annually puzzled by the tricks designed to deceive the eyes of those in the audience. Children and grown-ups alike are equally deceived.

One of the best pantomime illusions produced in recent years is "The Drowning and the Rising." The audience is a most mystifying affair. A haunted scene down to read in a haunted chamber by the light of an short candle set in a large candelstick on a table.

As he reads, the candle comes suddenly to grow, sprouting from its stick until it has attained the height of about eight feet above the table. For a moment it remains high up in the air, still burning brightly, until suddenly, with a swift switch, it rushes into the candelstick and completely vanishes from the sight.

The trick is accomplished as follows: A large sheet of white paper is hung over the pole. Then suddenly, the pole is pulled down by the fingers, giving the effect of the "vanishing candle" as already described.

The means by which falling snow is allowed to fall evenly down on the stage are very ingenious. A large canvas sheet is hung across the stage into the wings so that it forms a sort of bag.

In the centre of this bag the torn paper snow is deposited, where it is held in place by a small weight. The means by which falling snow is allowed to fall evenly down on the stage are very ingenious.

## A MOUNTAIN GATEWAY.

(By Blue Cernan.)

I know a vale where I would go one day, when June comes back and all the world comes once more, when the glad with summer. Deep with shade it lies, a misty cleft in the green booming hills.

A cool, dim gateway to the mountain's heart, a vale where I would go one day, when June comes back and all the world comes once more, when the glad with summer. Deep with shade it lies, a misty cleft in the green booming hills.

On either side the wooded slopes come once more, when the glad with summer. Deep with shade it lies, a misty cleft in the green booming hills. A cool, dim gateway to the mountain's heart, a vale where I would go one day, when June comes back and all the world comes once more, when the glad with summer. Deep with shade it lies, a misty cleft in the green booming hills.

Deep with shade it lies, a misty cleft in the green booming hills.

On either side the wooded slopes come once more, when the glad with summer. Deep with shade it lies, a misty cleft in the green booming hills. A cool, dim gateway to the mountain's heart, a vale where I would go one day, when June comes back and all the world comes once more, when the glad with summer. Deep with shade it lies, a misty cleft in the green booming hills.

On either side the wooded slopes come once more, when the glad with summer. Deep with shade it lies, a misty cleft in the green booming hills. ## Why to Buy at Home

## Simple Facts Worth Considering

Because my interests are here.  
Because the community that is good enough for me to live in is good enough for me to buy in.

Because I believe in transacting business with my friends.

Because I want to see the goods I am buying.

Because I want to get what I pay for.

Because my home merchant will take care of me when I run short of cash.

Because some part of every dollar I spend at home stays at home and helps work for the welfare of the town and country.

Because the merchant I buy from pays his share of the county and town taxes.

Because the home merchant I buy from stands back of his goods, thus always giving value received.

Because the merchant I buy from helps support our poor and needy, our schools, our churches, our homes and homes.

Because if ill luck, misfortune or bereavement comes, the merchant I buy from is here with his kindly expression of greeting, his words of cheer, and if needed, his pocketbook.

Let us make this town a good place in which to work and live. It's easy and certain if everyone will do his share.

The dollar sent away seldom returns, while the money spent at home is apt to have a scrapling at your door.

## Give Us The Right To Tax The Liquor Traffic or Let Us Vote The Abolition Of The Bar.

At the convention of mayors at Edmonton this week, Mayor Deacony, of Canmore, made the following statement:

"If the government does not give us some redress for having the traffic in our towns, I'll pray they give us a chance to vote the hotels and liquor traffic out of our towns, and out of our rural districts as well, if they want to keep them in the larger cities. If we cannot have some of the fees then give us a chance to get rid of the liquor traffic altogether, as we have to pay the cost of preserving the law when the hotels are still going."

It costs the municipalities more to look after the results of the traffic than look after the government to see that the hotel-keepers themselves do not violate the ordinance, so why should we not get an equal amount of the fees and fines?

Mrs. E. Kidd returned last week end from Calgary, where she had been attending for her daughter, Mrs. Perry, who has been ill.

## In Ten Years Will Save \$250,000,000

London, April 8.—Dr. F. B. Vrooman, of Vancouver, lecturing before the Royal Colonial Institute, upon the effect of the Panama canal upon Western Canada, said that the full political and economic effect of this operation of a hemisphere were not yet clear, but there was no doubt that it would inaugurate a revolutionary period, breaking up the old equilibrium of the world. The canal was already throwing a new economical and continental divide across Canada, two thirds of whose future products were destined to be shipped by the Pacific.

The present prohibitive, expensive and inadequate all-rail transcontinental haul would soon be a thing of the past. By the aid of the Panama canal and adequate dock facilities at Vancouver and Prince Rupert, Alberta farmers would gain \$2,500,000 on one crop alone and it was easy to see that the canal would in ten years give the farmers of Alberta and Saskatchewan at least \$250,000,000 in saved freight rates.

Dr. Vrooman estimated that the whole land of Canada which might be brought to the Pacific was \$33,000,000 acres, while that rightly belonging to the Atlantic was only \$6,000,000 acres, and declared that it was inevitable that the result must be an immense further peopling of the provinces and the conversion of Vancouver and Prince Rupert into two of the greatest seaports of the world.

## CURE FOR RHEUMATISM

"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terribly so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." For sale by all dealers.

## First Printer's Devil.

In the early days of printing the art was much of a mystery and ignorant people thought the printer evoked the aid of the powers of evil. Aldus Manutius the famous Italian printer of the sixteenth century, went to Africa on an exploring expedition, and brought back with him a very black negro boy. Negroes were a rarity then. The report immediately gained circulation that the printer had been employing the Black Art in his work and that the blackness was in reality an imp of Satan. He was called the "Little black Devil." The charge became so serious that the printer was forced to exhibit the negro in public. In his announcement he said:

"Be it known to Venice that I, Aldus Manutius, printer to the Holy Church and to the Duke, have this day made public exposure of the Printer's Devil. All those who think he is not flesh and blood may come and pinch him."

And that is how the term "Printer's devil" had its origin.—New York Sun.

## Reversing The Situation

Fog many years Western Canada has drawn extensively upon Eastern Canada for products which could successfully be grown in these provinces, but indications are in evidence that the situation is being reversed. Recently 4,000 eggs were shipped from Alberta to Toronto, and now Alberta hands are also being shipped to Ontario, where they are commanding good prices. For the first time in the history of Alberta, eggs were shipped to Ontario last week. Since the opening of their office in Edmonton this year, the Department of Natural Resources, C.P.R., has sold over 4,000 acres of land in Edmonton district to actual settlers. This represents about 25 farmers, who with their families will locate on the land.—Winnipeg Post.

## Local and General

Monday was observed as a public holiday.

James Padon bought a saddle horse on Saturday.

Miss G. Allison spent Easter with friends in Pincher Creek.

Dr. Turner, of Fernie, spent a couple of days in town this week.

J. S. McEachern returned Wednesday from a visit to the Okanagan.

Miss Murdoch, of the teaching staff, spent Easter at Pincher Creek.

Mrs. Kidd's maternity home, Box 95, Phone 151. Wedding cakes decorated.

J. A. Osborne is effecting considerable improvements to the Alberta hotel.

Over \$7,000 was paid out by the Rocky Mountain Cement Co. on Wednesday.

Several kinds of "deers" were seen in the vicinity of Goat Mountain on Sunday.

Miss Sarah Bonner, of Hoser, spent Easter with her sister, Mrs. H. Gibeau, here.

Dr. Wilson has effected a cure of an auto that was recently pronounced incurable.

A. Poggiali is conducting a big cash sale at his stores in Bellevue, Coleman and Blairmore.

Rev. W. H. Irwin, of Bellevue, officiated at the Presbyterian church on Sunday morning last.

Miss Moir, of the public school, paid a visit to Calgary and returned on Monday.

Mrs. J. H. Campbell, after spending a few weeks with her parents, returned to Lethbridge on Tuesday.

Mr. and Mrs. J. H. Lee, who left here early last year for the coast, and have since been residing at Sidney, B.C., returned to Blairmore on Monday.

L. E. Miller is renovating the Alberta hotel interior.

T. M. Burnett, of Bellevue, has treated himself to an auto car.

W. T. Eddy, C. F. Sedgwick and W. S. Knight, autoed to town from Lundbreck yesterday.

Indications of the presence of beaver have been found by the river just east of Burns.

Lewis Stockett and W. F. McNeill arrived in town by auto from Calgary on Wednesday.

Sir William Whyte, former vice-president of the C.P.R., died at Los Angeles on Tuesday, aged 70 years.

Rev. Dr. Fulton delivered an eloquent sermon at the Central Baptist church on Sunday morning last.

The boxing contest between Dick Marshall and Cyclone Scott, pulled off at Fernie on Monday, resulted in a draw.

O. E. S. Whitesides, manager of the International Coal & Coke Co., at Coleman, is now the possessor of an auto.

Contractor E. Pozzi has just completed a concrete amphitheatre for the West Canadian Collieries at Bellevue.

H. E. Pozzi has the masonry contract for A. J. Blair's new store at Frank, and commenced operations on Tuesday.

A good crowd gathered at the opera house on Sunday night to hear the Rev. Dr. Fulton on "Providence-Wide Prohibition."

The Blairmore orchestra attended the opera house on Sunday night and rendered accompaniment for the singing of the hymns.

Mr. MacDonald, former principal of the Coleman public school, came to town from Edmonton on Saturday to spend a few days with Principal Vergo.

Miss Katie McPhail, of Calgary, paid a visit to her brother, John McPhail, during the week. Before returning north she visited the hotel home in Fernie.

We notice by the Calgary Alberta that the Rocky Mountain Cement Co. has secured a contract to supply the city of Calgary with 25,000 barrels of cement.

The annual ball given by Wellington L.O.L. at the opera house on Wednesday night was well attended. The Bellevue orchestra furnished excellent music for the occasion.

Miss L. Chatfield, who has served so efficiently for the past couple of years as assistant at the local post office, severed her connection with that institution on Monday. We understand that Miss Chatfield has accepted the charge of the post-office at Brooks.

Mike Rosse's car is likely to unite its fortune with Tom Cox's just south of State Street on Ninth avenue. There is no truth in the report that Orville Wright has been endeavoring to acquire Mike's car as a competitor for Northcliffe's \$50,000 trans-Atlantic flight.

The Windsor hotel at Lundbreck has just undergone a complete renovation, and is now one of the most presentable hotels in Sunny Southern Alberta. Despite the prevalence of so-called hard times, Mr. Madden believes in keeping his house up to its original standard and reputation, and transient guests could find no better home in all their travels than in the Windsor under the hospitality of its staff.

A week from Sunday will be observed by the local society as the Anniversary of Oddfellowship, and the usual divine service will be held in the afternoon at the Central Baptist church, where the Rev. W. T. Young, of the Frank Methodist church will officiate. A general invitation is extended to all Oddfellows in The Pass to join in the day's proceedings. The members will assemble at the new Oddfellows' hall at 8 p.m. sharp, from whence they will proceed in procession to the church, headed by

**ASK FOR FIVE ROSES FLOUR**  
*The World's Best*

**Send for Five Roses Cook Book**

BEING A MANUAL OF GOOD RECIPES carefully chosen from the collection of over one thousand successful ones of Five Roses Flour throughout Canada. Also useful hints on the various classes of good things to eat, all of which have been carefully checked and reduced by competent authority.

Address your requests to LAKE OF THE WOODS MILLING CO. LIMITED, WINNIPEG

If unable to secure Five R Flour from your local dealer, write the Lake of the Woods Milling Co., Limited, Winnipeg, Manitoba

the Bellevue brass band.

No word has yet been received from the missing sealer Southern Cross, and all hope for the ship and crew of 183 men has been abandoned.

President Graham, of District 18 C.M.W. of A., accompanied by Mrs. Graham, spent yesterday in town and registered at the Cosmopolitan.

It is reported that the sealing steamer Kite is missing in Newfoundland waters with her crew of about 80 men, and it is feared has gone down with all hands.

Newfoundland clubs all over the states and Canada have organized a subscription campaign to raise funds for the relief of the helpless widows and orphans of the victims of the recent sealing disasters.

Mr. Moore, formerly of the Galbraith Collieries at Lundbreck, but now of Calgary, was in town for a few days this week. Mr. Moore is agent for the most improved gramophone and had a 12-record half-hour machine on exhibition at the Cosmopolitan.

A serious drowning fatality was barely averted on Monday evening, when little Robbie Thompson, who was playing around near the tennis court, ventured too near the embankment of the river and tumbled into the swift current. His cousin, Miss Pinkney, who was nearby at the time, immediately rushed to the little lad's assistance. In her attempt to reach him she

too, came very near being carried out into the elements when a friend nearby made an alarm which attracted parties in the tennis court. In a moment Mr. J. H. Farmer rushed to the scene and rescued both from their perilous predicament, but not before the little boy had been swept down a considerable distance.

This accident should be a warning to children to keep away from the river banks at this season of the year when the river is high and the embankments are being undermined, making them exceedingly dangerous.

STRAIGHT AT IT

There is no use of our "boating around the bush." We might as well cut with it first at last. We want you to try Chamberlain's Cough Remedy, the next time you have a cough or cold. There is no remedy so far as we can see you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by all dealers.

MAN MADE USE OF AS A WHEELBARROW is an idea conceived and just carried into effect by the ladies of this town. In the new device there are not so many spokes in the wheel and the handles are such that give more than one party a chance to assist and the poor "barrow" has to do as they please.

GOOD MEDICINE FOR CHILDREN

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effective. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by all dealers.

**What Corsets Do You Wear?**

If you could ask this question of every well-groomed, graceful Canadian woman, her answer would invariably be

**à la Grâce**

Corsets

Naturally! Grace, Ease and Comfort become second nature to wearers of C/G's à la Grâce Corsets.

Come and see the wide variety of new models now being shown.

A good showing of new styles ready-to-wear garments is also on view.

## BLAIRMORE TRADING CO.

DEALERS IN

DRY GOODS, LADIES', GENTS' and CHILDREN'S FURNISHINGS

The auction sale, conducted by J. M. Carter on Saturday on the ranch of Walter Adams, near Lundbreck, was in every way a success, and apart from horses, the prices secured were by far better than was expected.

Excavation for the foundation and placement of the new store for the Frank Wine & Spirit Co. has been completed and building operations will proceed at once. We understand that the new building will be of concrete construction.
